Service Computation Formula

1. List beginning date (never change).

2. List ending date (change ending date to 30 if it is the last day of month and other than 30).

3. Subtract the beginning date from the ending date.

4. Add 1 day to account for inclusive date.

5. Subtract any lost time.

6. Convert the result into whole years, months, and days.

Confirmation of BASD (Check)

1. Identify beginning date of last continuous active service.

2. Total all previous active service periods.

3. Subtract previous active service from beginning date of last continuous active service.

4. Add any lost time that is in the continuous active service period.

5. Convert the results into whole years, months, and days.

Confirmation of PEBD (Check)

1. Identify beginning date of last continuous service for pay.

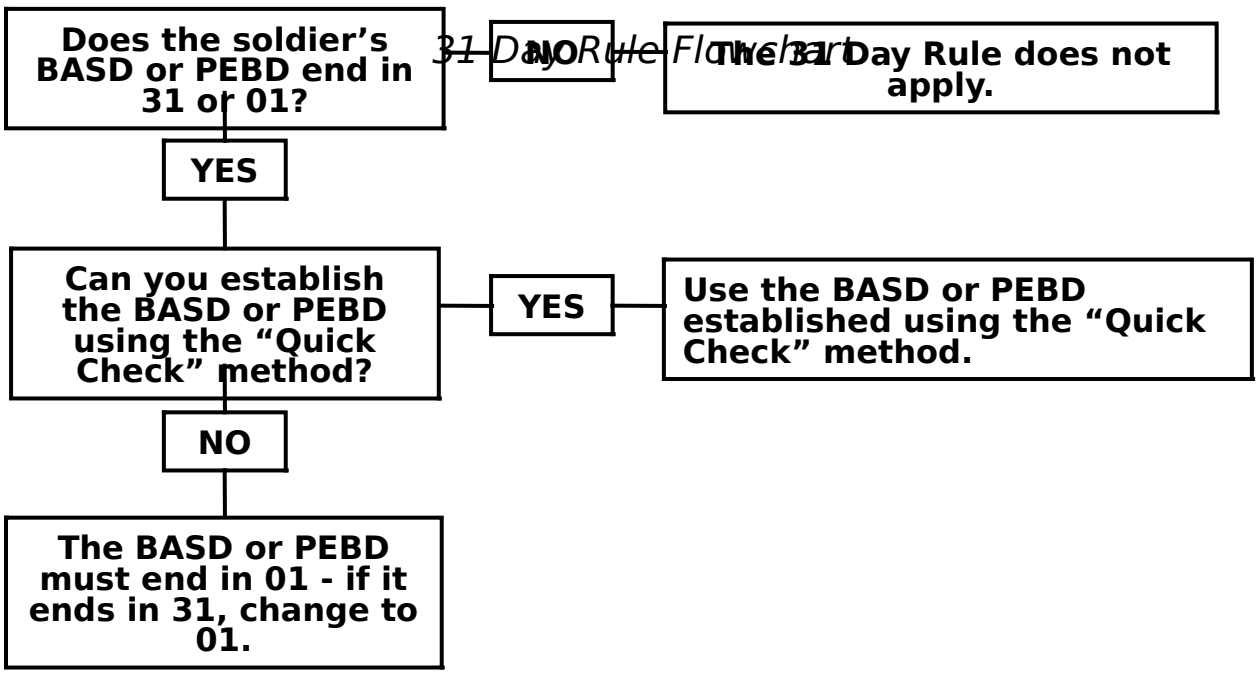
2. Total all previous active and inactive service periods creditable for pay.

3. Subtract previous active and inactive service from beginning date of last continuous service for pay.

4. Add any lost time that is in the continuous service period.

5. Convert the results into whole years, months, and days.

31 Day Rule Flowchart



Does the soldier's BASD or PEBD end in 31 or 01?
NO
The 31 Day Rule does not apply.
YES
Can you establish the BASD or PEBD using the "Quick Check" method?
YES
Use the BASD or PEBD established using the "Quick Check" method.
NO
The BASD or PEBD must end in 01 - if it ends in 31, change to 01.

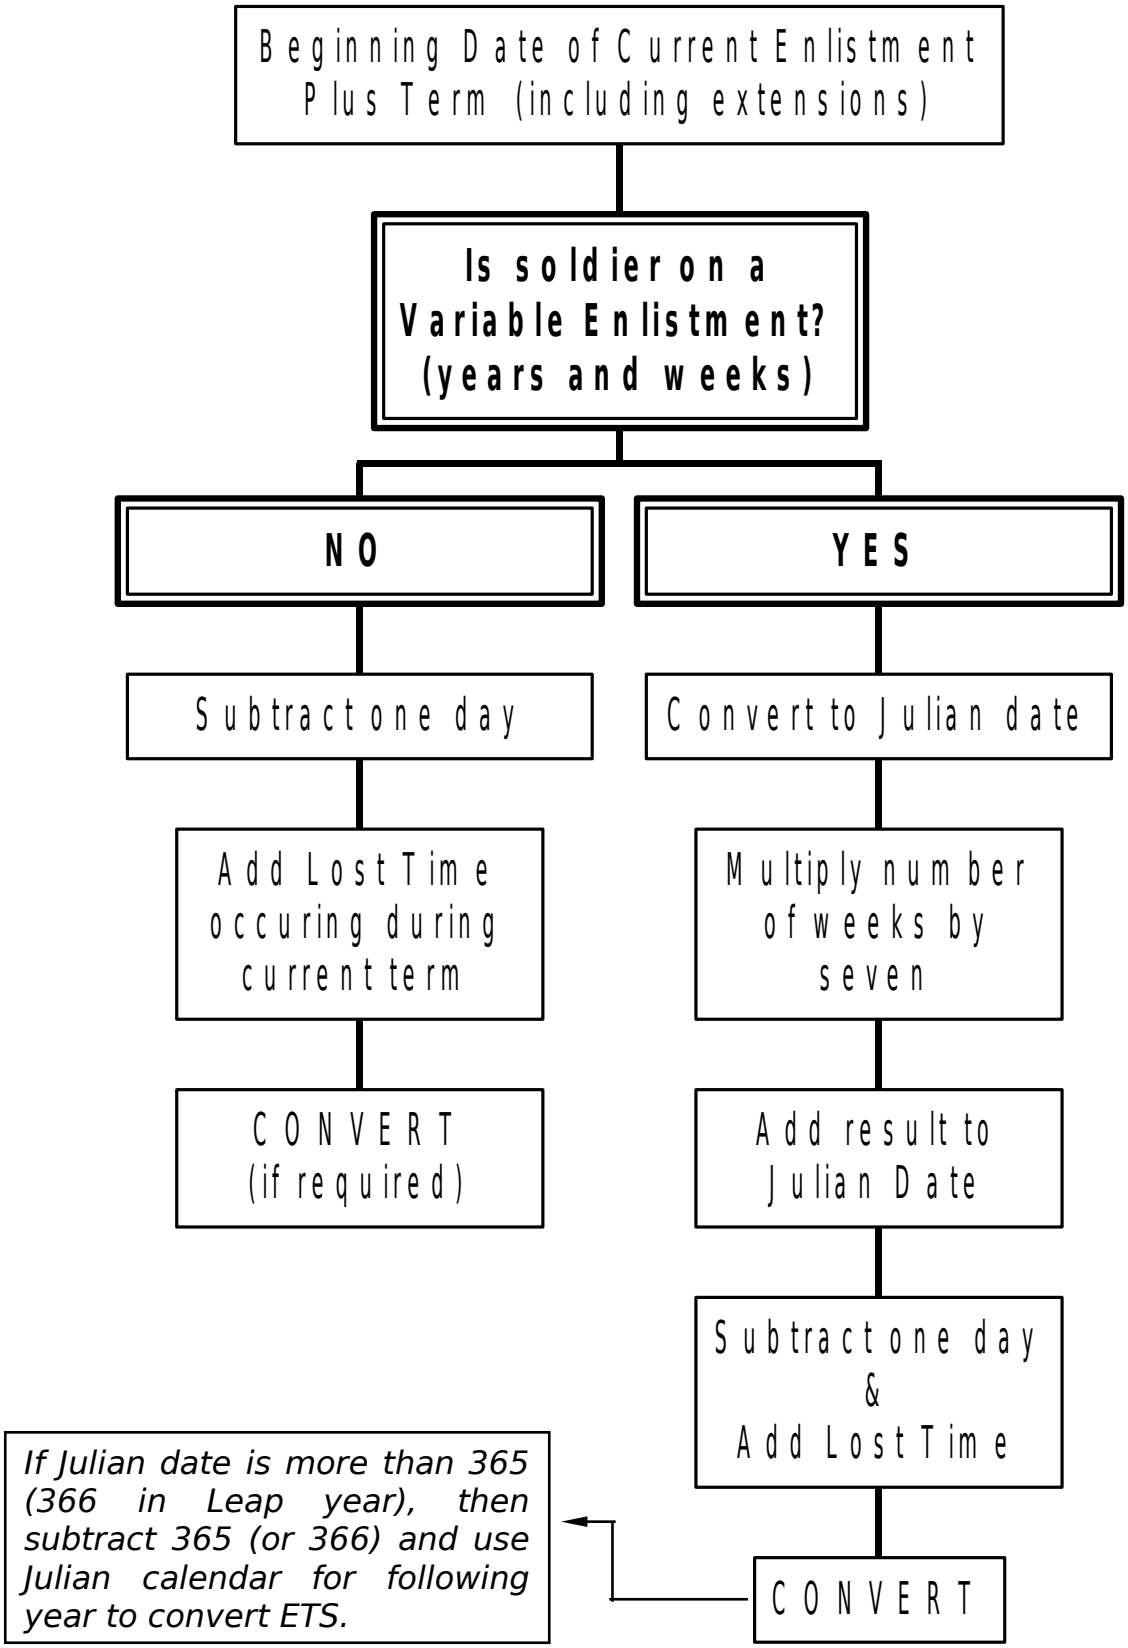
Determine ETS Flowchart

Reference: DA Msg, DTG 172045Z Mar 89, Sub: Computation of ETS for Variable Terms of Enlistment (VEL)



Beginning Date of Current Enlistment Plus Term (including extensions)
Is soldier on a Variable Enlistment? (years and weeks)
NO
YES
Subtract one day
Convert to Julian date
Add Lost Time occuring during current term
Multiply number of weeks by seven
CONVERT (if required)
Add result to Julian Date
Subtract one day & Add Lost Time
CONVERT
If Julian date is more than 365 (366 in Leap year), then subtract 365 (or 366) and use Julian calendar for following year to convert ETS.
